I am a Certified CISCO Network expert with two years of experience and expertise in designing, implementing, and troubleshooting network infrastructure and security. I have a proven record of evaluating system vulnerability in order to recommend security improvements as well as improve efficiency while aligning business processes with network design and infrastructure. I am social and passionate not only to my colleagues but to everyone in my environment.

Professional Experience

PCEA MAHIGA PARISH
IT SUPPORT

July 2021 – Dec 2022
